*'Aiming high..... **safely and together**'*

Eastington Primary is a Rights Respecting School and this policy incorporates the principles and practices of the UNICEF RRS initiative. In particular, it is important to refer to the following articles of Children's Rights;

- Article 16: Children have a right to privacy. The law should protect them from attacks against their way of life, their good name, their families and their homes.
- Article 18: Both parents share responsibility for bringing up their children, and should always consider what is best for each child. Governments should help parents by providing services to support them, especially if both parents work.
- Article 19: Governments should ensure that children are properly cared for, and protect them from violence, abuse and neglect by their parents or anyone else who looks after them.
- Article 20: Children who cannot be looked after by their own family must be looked after properly and safely, by people who respect their religion, culture and language.

Safeguarding Children (Child Protection) Policy

Statement of Intent

At Eastington Primary School we have a responsibility to ensure that the children with whom we are in contact are protected from harm. The protection and welfare of the child is the paramount consideration in all actions.

Introduction

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002, and in line with government publications: 'Working Together to Safeguard Children' 2015, Revised Safeguarding Statutory Guidance 2 'Framework for the Assessment of Children in Need and their Families' 2000, 'What to do if You are Worried a Child is Being Abused' 2003. The guidance reflects, 'Keeping Children Safe in Education' 2016.

This document has been formulated by staff, governors, parent representatives and pupils (via the School Council) and supports the principles of the Children's Act, and guidance offered by national authorities. The purpose of this document is to help all who work in the school environment to identify and support children who may be at risk.

Gloucestershire Safeguarding Children Board states

'The protection and welfare of the child must be the paramount consideration in all action. All professionals in contact with children and their families must be aware of the possibility of child abuse and neglect and of the need to maintain vigilance at all times. Children must be listened to, taken seriously and their comments fully evaluated'.

Context

Our policy applies to **all staff, governors and volunteers** working in and connected to the school.

At Eastington we will ensure that:

- Designated Safeguarding Lead and the Deputy Safeguarding Leads receive multi-agency training (every 2 years).
- We practice safe recruitment in line with Government guidance. At present, Mrs Suzi Colley, (Chair of Govs), Kay Davis (Vice Chair) and the Headteacher have passed training as accredited recruiters. At least one will be on all interview panels and check the suitability of staff and volunteers to work with children. The Headteacher is required by statute to report to the Independent Safeguarding Authority (ISA), within one month of their leaving the school, any person (whether employed, contracted, a volunteer or student) whose services are no longer used because he or she is considered unsuitable to work with children. Any unsuitable behaviour is reported and managed using the Allegations Management procedures.
- A Single Central Register is held for all staff which includes identity, qualification and health checks, right to work and reference checks. The Single Central Register is reviewed regularly by the Governing Body, which is attended by the Headteacher and the School Administrator. All staff are checked for their suitability to work with children through the Disclosure and Barring Service (DBS, formerly Criminal Records Bureau) at Enhanced level.
- All staff are kept up to date with Child Protection issues and includes formal training every three years (latest training for all school staff/extended services staff January 2018).
- The safeguard leads undergo training in line with Government guidance and share information with the school team (EG: Dept safeguard lead: Prevent training Oct 2015, DSL and staff: FGM training Nov 2015).
- We raise awareness of child protection issues and recognise that safeguarding incidents could happen anywhere.
- Children are equipped with the skills needed to keep them safe.
- Governors are kept well informed about procedures through committee or full governors meetings and external training.
- We implement procedures for identifying and reporting cases, or suspected cases, of abuse by logging welfare concerns and referring to the Children's Helpdesk.
- By supporting pupils who have been abused in accordance with his/her agreed child protection plan.
- Eastington is a safe environment in which children can learn and develop.
- All staff, volunteers and governors who regularly work in school under the new DBS definition of regulated activity (Sept 2012) will be subject to an Enhanced level DBS check.

We recognise that because of the day to day contact with children, school staff are well placed to observe the outward signs of abuse.

At Eastington we will therefore:

- Establish and maintain an environment where children feel secure, are encouraged to talk, and are listened to.
- Ensure children know that there are adults in the school whom they can approach if they are worried or in difficulty.
- Include opportunities in the PSHCE curriculum for children to develop the skills they need to recognise and stay safe from abuse and know who to turn to for help.

We will follow the procedures set out by the Gloucestershire Safeguarding Children Board and take account of guidance issued by the DfE to:

- Ensure we have a designated senior person for Safeguarding (Child Protection) who has received appropriate training and support for this role.
- Ensure we have a nominated governor responsible for child protection who has received appropriate training.
- Ensure every member of staff (including temporary and supply staff and volunteers) and governing body knows the name of the designated senior person responsible for child protection and their role.
- Ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and responsibility for referring any concerns to the designated senior person responsible for child protection.
- Ensure that parents have an understanding of the responsibility placed on the school and staff for child protection by setting out its obligations in the school prospectus.
- Notify the relevant social worker if there is an unexplained absence of more than two days of a pupil who has a Child Protection Plan (previously known as being on the child protection register).
- Develop effective links with relevant agencies and co-operate as required with their enquiries regarding child protection matters including attendance at child protection conferences and core groups.
- Keep confidential written records of concerns about children, even where there is no need to refer the matter immediately.
- Ensure all records are kept securely, separate from the main pupil file, and in secure locations.
- Develop and then follow procedures where an allegation is made against a member of staff or volunteer including supply or agency workers, contractors or governors.
- Ensure safe recruitment practices are always followed in line with 'Keeping Children Safe in Education' statutory guidance.
- Ensure all staff have read part 1 of Keeping Children Safe in Education.

We recognise that children who are abused or witness violence may find it difficult to develop a sense of self-worth. They may feel helplessness, humiliation and some sense of blame. The school may be the only stable, secure and predictable element in the lives of children at risk. When at school their behaviour may be challenging and defiant or they may be withdrawn.

The school will endeavour to support the pupil through:

- An ethos which promotes a positive, supportive and secure environment where all pupils have a sense of being valued.
- The content of the curriculum including regular consultation through safety questionnaires, individual conferencing and asking children to report about whether they have had a happy/sad lunchtimes/playtimes. Road safety, cycle training and working closely with secondary schools to prepare for transition.
- A Behaviour policy which is aimed at supporting vulnerable pupils in the school. The school strives to ensure that pupils know that some behaviour is unacceptable but they are valued and not to be blamed for any abuse which has occurred.
- Liaison with other agencies that support the pupil such as Social Care, the Child and Adult Mental Health Service, Education Welfare and Educational Psychology Service.
- Ensuring that, where a pupil who has a child protection plan leaves, their information is transferred to the new school immediately and that the child's social worker is informed.

Types of Abuse and Neglect

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment);
- Protect a child from physical and emotional harm or danger;
- Ensure adequate supervision (including the use of inadequate care-givers);
- Ensure access to appropriate medical care or treatment.
- Neglect of, or unresponsiveness to, a child's basic emotional needs.

Physical abuse: a form of abuse which may involve:

- Hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.
- Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.
- **Sexual abuse:** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:
 - Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing.
 - Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet).
- Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.
- **Emotional abuse:** the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve:
 - Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person.
 - Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate.
 - Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction.
 - Seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children.

- Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.
- **Peer on Peer abuse:** occurs when a young person is exploited, bullied and / or harmed by their peers who are the same or similar age; everyone directly involved in peer on peer abuse is under the age of 18. 'Peer-on-peer' abuse can relate to various forms of abuse (not just sexual abuse and exploitation), and crucially it does not capture the fact that the behaviour in question is harmful to the child perpetrator as well as the victim.
- Situations where young people are forced or coerced into sexual activity by peers or associates can be related with gang / serious youth violence activity but that is not always the case. Peer influence or peer pressure is a major factor in the decisions made by young people to join groups. Many young people see it as a "way out" from their day to day life and feel a strong bond with their peers, one which they may be lacking at home.

Recognition of possible abuse

Whilst recognising it is difficult to determine if abuse has occurred, all staff members should look carefully at the behaviour of their children and be alert for significant changes. Staff members should maintain an attitude of 'it could happen here'. All staff members should be aware that children may exhibit any of the following without abuse having occurred:

Disclosure.

Non accidental injury, bruising or marks.

Explanation inconsistent with injury.

Several different explanations for an injury.

Reluctance to give information about an injury

A sudden change in behaviour – aggression, extroversion, depression, withdrawn.

Attention seeking

Hyperactivity

Poor attention

Appear frightened of parents or family members

Abnormal attachment between parent and child

Indiscriminate attachment

Hyper alertness.

Reduced response.

Frozen watchfulness.

Nightmares.

Anxiety/irritability.

Abdominal pain/headaches.

Poor self-esteem.

Poor peer relationships

Act in an inappropriate way for age

Over sexualised play/talk or drawings.

Excessive or inappropriate masturbation

Self-harm/eating disorder

Frequent visits to the toilet (urinary infection).

Reluctance to change for P.E.

Failure to thrive

Poor hygiene
Recurrent/untreated infections of skin or head lice
Untreated health/dental issues
Frequent absence from school or repeated lateness
Delay in meeting normal developmental milestones

Procedures and responsibilities – Designated Safety Lead (Mrs Catrin Parsons)

- Following all the correct procedures where abuse is disclosed.
- Informing the relevant external agencies where necessary.
- Ensuring that procedures and policies are kept up to date and relevant (including the ‘Cause for Concern Register’) as new information is produced.
- Liaising with other members of staff and the school leadership (Headteacher) to keep staff informed about measures put in place to support and/or monitor individual cases.
- Liaising with parents, carers and guardians about how a child is being supported.
- Ensuring that support measures are being followed correctly by staff and support agencies.

Procedures and responsibilities – All staff

- **All staff** are aware of procedures to be followed when abuse is suspected, including those in cases where an accusation is made against a member of school’s staff.
- The procedure route will depend upon the urgency of the situation and whether it is a suspicion of abuse or an actual disclosure.
- Any member of staff with an issue or concern relating to child protection should discuss it with the DSL as soon as possible.
- It will be made clear to the child that confidentiality cannot be guaranteed in respect of child protection issues. Allegations of child abuse must always be given the highest priority and referred immediately to the **Designated Safety Lead (Mrs Catrin Parsons) or in her absence the Deputy DSL Ms Zoe Avastu or Mrs Andrea Jordan.**

Actions in the event of a concern or disclosure

Suspicion of Abuse (if abuse is suspected but there has been no disclosure.)

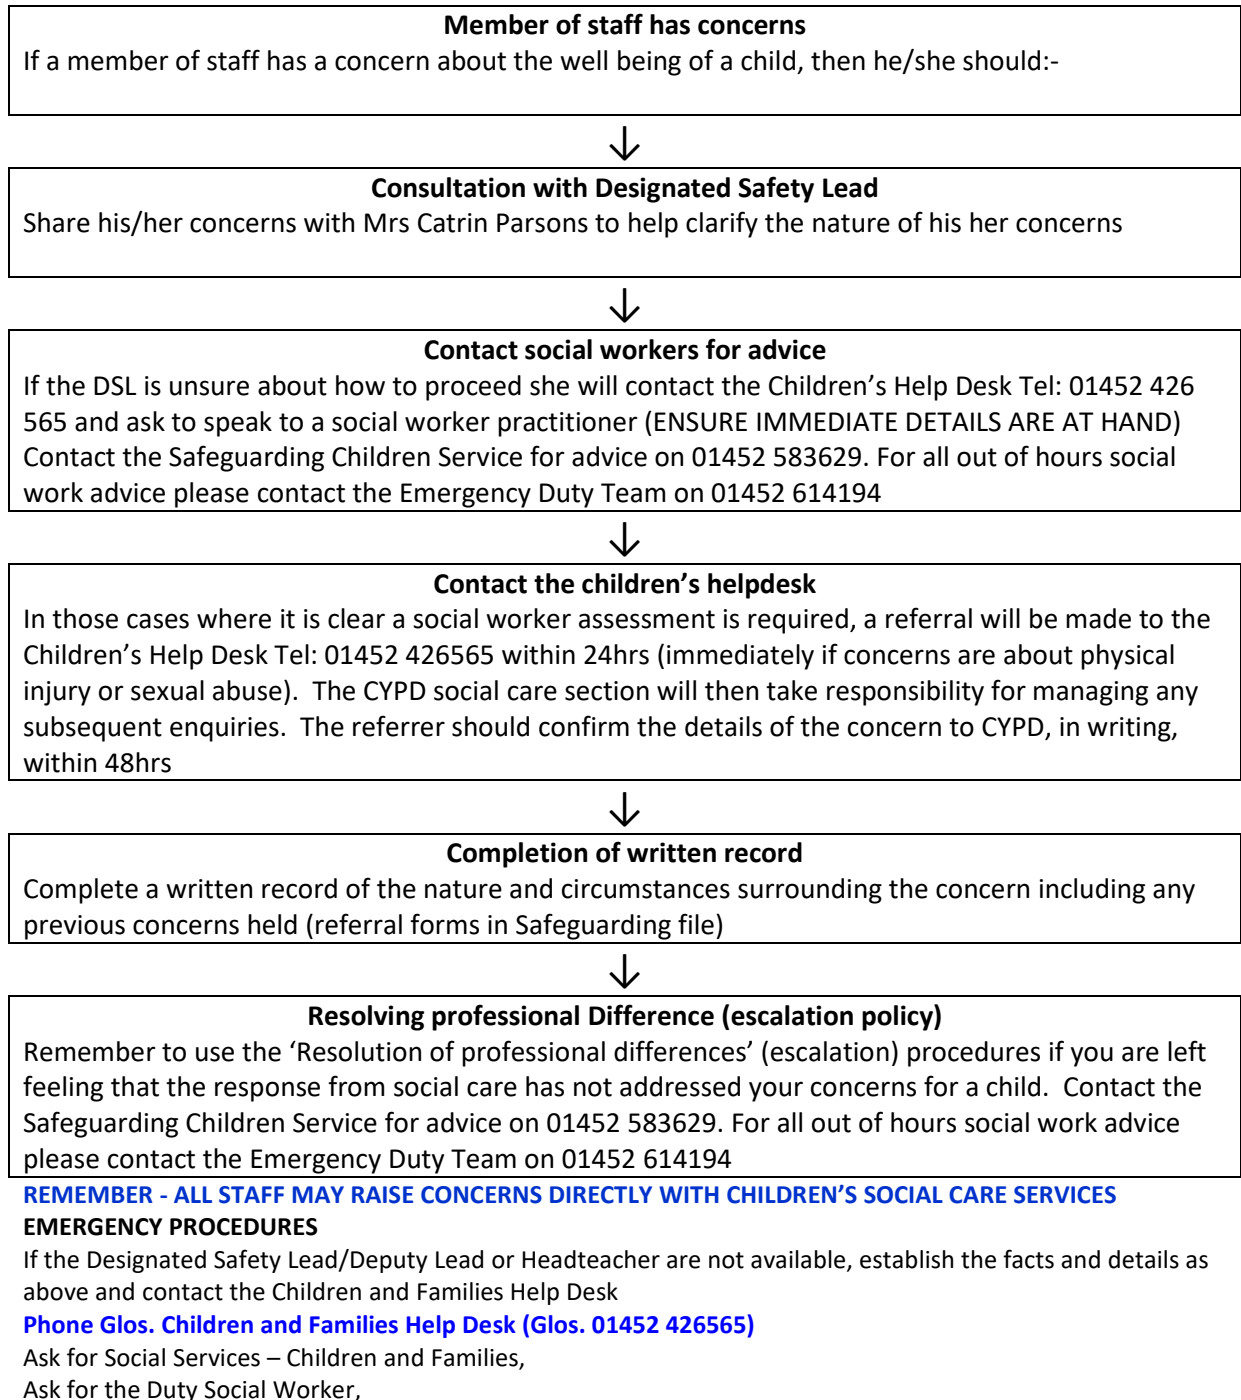

- Ask casual open questions about the nature of the concern e.g. bruises, marks, change in behaviour etc. “Can you tell me about...” Believe the child and reassure them that they were right to talk to you.
- Record the facts and conversation in writing immediately afterwards using the exact words spoken not implied. Sign and date the report (it may be required as evidence.)
- Report the suspicion to the Designated Safety Lead or the Headteacher.
- **If, at any point, there is a risk of immediate serious harm to a child a referral should be made to children’s social care immediately. Anybody can make a referral.**

Disclosure

1. Allow the child to talk – ask only open questions e.g. ‘Can you tell me more about..’
Do not press for detail, put forward your own ideas or use words that the child has not used themselves as this could lead to complications further down the line
2. Stay calm and reassuring.
3. **Do not** make promises that cannot be kept e.g. confidentiality – tell the child that you will have to tell someone else who will be able to help.
4. Believe the child but do not apportion any blame to the perpetrator, (it may be someone they love).
5. Reassure the child that they were not to blame and they were right to talk to you, whilst information may need to be passed on, it will only be done to support and keep from harm the individual concerned.
6. Ask the child if they have told anyone else.
7. Keep an open mind.
8. Record the conversation and facts verbatim in writing immediately afterwards (writing notes during the interview may put undue pressure on the child). Sign and date the report (The note should record **the time, date, place and people who were present as well as what was said**. This note may well be used in any subsequent court proceeding and may be required as evidence).
9. Establish details of full name, D.O.B. address and names of parents/guardians.
10. Report to the Designated Safety Lead or Headteacher who will contact the Social Services Department as necessary.

Please see step by step actions - ‘Flow Chart for Response’ that follows

FLOW CHART FOR RESPONSE

Check to see if the family are already known to Social Services,
Discuss the situation and ask for advice,
A social worker may come to school to talk to the child,
Establish who will be responsible for informing the parents,
Social services will contact the police (G.S.G.B - Glos. Safeguarding Children Board) as necessary. If action is taken, follow up the phone call with a referral form (see Appendix 1.)

If you have concerns about the immediate safety of the child or a serious criminal offence has been committed, contact the Police on 101.

Additional Guidance/information

- If a child confides in a member of staff and requests **confidentiality** it is important that the child is told sensitively that he/she has a responsibility to refer cases of alleged abuse to the appropriate agencies for the child's own sake. Within that context the child should however, be assured that the matter will be disclosed only to people who need to know.
- Where abuse is suspected or a sustainable allegation made, teachers and other members of staff should report the information to the school's **Designated Safety Lead for child protection (Mrs Catrin Parsons) or in her absence the Deputy Designated Safety Leads (Ms Zoe Avastu or Mrs Andrea Jordan)**. Both of whom have received multi-agency training (every 2 years).
- **All staff** have a professional responsibility to share relevant information about the protection of children with other professionals, particularly investigating agencies. A member of staff who knows the child best should be prepared to contribute the school's knowledge of the child to a joint agency discussion.
- Staff who receive information about children and their families in the course of their work should share that information only within appropriate professional contexts. This also applies to all adults in the school should there be concerns. These should be reported to the DSL or the Headteacher.
- The Designated teacher/Headteacher to inform Eastington School Governing body as laid down in the Child Protection Procedures Handbook.
- Children identified on Child Protection Register will be monitored in line with agreed Child Protection Plan i.e. appropriate personnel who are in direct contact with said child to be informed and notify the Headteacher as part of monitoring process.
- Reports prepared for such discussions should focus on the child's educational progress and achievements, attendance, behaviour, participation, relations with other children and, where appropriate the child's appearance. If relevant, reports should include what is known about the child's relations with his or her family and the family structure. Reports should be objective and based on evidence. They should distinguish between fact, observation, allegation and opinion.
All staff recognise the additional vulnerabilities for 'Looked After Children' who may be placed at an increased risk due to their individual circumstances. Any safeguarding concerns should be reported to the DSL in line with statutory guidance. Staff should be aware of LAC pupils in order to meet their needs as part of their overall development and safety
- All staff are aware that children with SEND and/or differences/perceived differences are more susceptible to being bullied/victims of child abuse. Separate policies for SEND and Anti Bullying provide further detail. The school maintains a record of bullying/racist incidents.

Specific Safeguarding Issues

Expert and professional organisations are best placed to provide up-to-date guidance and practical support on specific safeguarding issues. For example NSPCC offers information for schools and colleges on the TES website and also on its own website www.nspcc.org.uk Schools and colleges can also access broad government guidance on the issues listed below via the GOV.UK website:

- child sexual exploitation (CSE) – see also below
- child missing from education
- child missing from home or care
- anti-bullying including cyber-bullying
- domestic violence
- drugs
- fabricated or induced illness
- faith abuse
- female genital mutilation (FGM) – see also below
- forced marriage
- gangs and youth violence
- gender-based violence/violence against women and girls (VAWG)
- gender identity and sexuality
- hate
- honour based violence
- mental health
- peer on peer abuse
- private fostering
- preventing radicalisation – see also below
- relationship abuse
- sexting
- teenage relationship abuse
- trafficking

Further information on Child Sexual Exploitation, Female Genital Mutilation, Honour Based Violence and Preventing Radicalisation

Child sexual exploitation (CSE)

Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have

been sexually exploited even if the sexual activity appears consensual. Child exploitation does not always involve physical contact; it can also occur through the use of technology.

Like all forms of child sexual abuse, child sexual exploitation:

- can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who can legally consent to have sex;
- can still be abuse even if the sexual activity appears consensual;
- can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity;
- can take place in person or via technology, or a combination of both;
- can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence;
- may occur without the child or young person's immediate knowledge (through others copying videos or images they have created and posting on social media, for example);
- can be perpetrated by individuals or groups, males or females, and children or adults. The abuse can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse; and
- is typified by some form of power imbalance in favour of those perpetrating the abuse. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources.

Female Genital Mutilation (FGM)

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM. There is a range of potential indicators that a child or young person may be at risk of FGM, which individually may not indicate risk but if there are two or more indicators present this could signal a risk to the child or young person. Victims of FGM are likely to come from a community that is known to practise FGM. Professionals should note that girls at risk of FGM may not yet be aware of the practice or that it may be conducted on them, so sensitivity should always be shown when approaching the subject. Warning signs that FGM may be about to take place, or may have already taken place, can be found on pages 16-17 of the Multi-Agency Practice Guidelines. Chapter 9 of the Guidelines (pp. 42-44) focuses on the role of schools. Staff should activate safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care.

When **mandatory reporting commences in October 2015** these procedures will remain when dealing with concerns regarding the potential for FGM to take place. Where a teacher discovers that an act of FGM appears to have been carried out on a girl who is aged under 18, there will be a statutory duty upon that individual to report it to the police.

The Mandatory reporting duty will commence in **October 2015**. Once introduced, teachers must report to the police cases where they discover that an act of FGM appears to have been carried out. Unless the teacher has a good reason not to, they should still consider and discuss any such case with the school's designated safeguarding lead and involve children's social care as appropriate.

Honour Based Violence (HBV)

Honour based violence is a crime or incident, which has or may have been committed to protect or defend the honour of the family and /or community.

Preventing Radicalisation

Protecting children from the risk of radicalisation should be seen as part of schools' wider safeguarding duties, and is similar in nature to protecting children from other forms of harm and abuse. During the process of radicalisation it is possible to intervene to prevent vulnerable people being radicalised.

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism. There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. It can happen in many different ways and settings. Specific background factors may contribute to vulnerability which are often combined with specific influences such as family, friends or online, and with specific needs for which an extremist or terrorist group may appear to provide an answer. The internet and the use of social media in particular has become a major factor in the radicalisation of young people.

As with managing other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. School staff should use their professional judgement in identifying children who might be at risk of radicalisation and act proportionately which may include making a referral to the Channel programme.

Prevent

From 1 July 2015 specified authorities, including all schools as defined in the summary of this guidance, are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 ("the CTSA 2015"), in the exercise of their functions, to have "due regard" to the need to prevent people from being drawn into terrorism". **This duty is known as the Prevent duty.**

Paragraphs 57-76 of the Prevent guidance are concerned specifically with schools.

The statutory Prevent guidance summarises the requirements on schools in terms of four general themes: risk assessment, working in partnership, staff training and IT policies.

- Schools are expected to assess the risk of children being drawn into terrorism, including support for extremist ideas that are part of terrorist ideology. This means being able to demonstrate both a general understanding of the risks affecting children and young people in the area and a specific understanding of how to identify individual children who may be at risk of radicalisation and what to do to support them.
- The Prevent duty builds on existing local partnership arrangements.
- The Prevent guidance refers to the importance of Prevent awareness training to equip staff to identify children at risk of being drawn into terrorism and to challenge extremist ideas. As a minimum, however, schools should ensure that the designated safeguarding lead undertakes **Prevent awareness training** and is able to provide advice and support to other members of staff on protecting children from the risk of radicalisation.
- Schools must ensure that children are safe from terrorist and extremist material when accessing the internet in schools. Schools should ensure that suitable filtering is in place.

EARLY HELP...WHAT WE ALL NEED TO DO.

The school is committed to offering early help and will provide support and guidance to ensure children and young people remain safe

We listen to the voice of the child to identify concerns and all forms of abuse including radicalization, FGM etc. We practice multi-agency working and understand the referral processes etc. is critical to ensure that early help and support is offered. **(See Appendix 1 – Offer of Early Help)** Whilst the staff meet on a regular basis to discuss concerns, all adults working within the school are responsible for identifying and raising concerns if they consider that early help is required. A key factor is:

Listening and Talking to Children (staff guidance)

- ❖ Take what the child says seriously.
- ❖ React calmly because over reacting can frighten the child and compound feelings of guilt.
- ❖ Tell the child they are not to blame. Children often feel guilty.
- ❖ Explain to the child what will happen next and that you will have to tell someone else that can help.
- ❖ Check out your understanding with the child of what has happened if you are not clear what the child is telling you.
- ❖ Keep questions to a minimum and never lead the child, as leading questions may invalidate the child's testimony in court.
- ❖ Use the words the child uses (e.g. for different parts of the body). If the child is aware that you are reluctant to use particular words, they may feel reluctant to use the words themselves or may not speak at all.

When talking to children who may have been abused, you need to strike a balance between gathering enough information to establish whether or not there is cause for concern and undertaking an investigation interview which is the responsibility of the investigating agency. Having established that there is cause for concern, it should be possible to postpone a fuller interview until the social worker arrives. Training needs are considered and all staff are involved in the process. Children need to know that early help is available (e.g. the school operates 'worry boxes' which are checked and followed up by staff). Staff are aware who the DSL is and the procedures for reporting concerns.

Allegations against Staff

1. If the complaint has been made against a member of staff or volunteer including supply or agency workers, contractors or governors, the Government's Allegations Management Procedures are implemented. The staff concerned about another member of staff's actions or the person made aware of incident immediately contacts the Head Teacher, who in turn contacts the Local Authority Designated Officer for Allegations (LADO) on 01452 426994 or 01452 583638 for an Initial Discussion and reported to OFSTED as appropriate.
2. We ensure the child is safe.

3. In the case of the Head Teacher being accused, the Chair of Governors, Mrs Kay Davis and/or the Child Protection Governor should be informed and the compliance policy should be followed including reporting to OFSTED.

4. Employers and senior staff have a responsibility to ensure that professional behaviour applies to relationships between staff and pupils. Physical contact is a particular issue where thought is required. With younger children touching is inevitable and provides reassurance. With older children, perfectly innocent actions can be misconstrued. In emergencies, physical restraint to prevent harm to the pupil or to others can be required.

5. Any member of staff using the Code of Conduct & confidential reporting procedure (Whistle-blowing) will receive full support.

Reporting concerns to Parents

As a general principle, it is important to be open and honest when dealing with parents. Parents have primary responsibility for the care of their children and in most circumstances parents should be informed as soon as possible about concerns regarding their children. However, in some cases of alleged or suspected child abuse it may not be appropriate for parents to be informed immediately, because it may prejudice the investigation. In such cases concerns should be reported to the Headteacher who will in turn contact the local Social Services Department.

Guidance when listening and talking to parents

Parents react in many different ways when they hear their child is suspected of being abused. They can feel angry, threatened, indignant, depressed, ashamed or guilty, and it is understandable that people have strong feelings in such circumstances.

When talking to parents who may be highly emotional, it is helpful to:

- ❖ Meet parents with the Headteacher
- ❖ Be open and honest with parents and tell them the reasons for your concern
- ❖ Be very specific regarding the information you may wish to share
- ❖ Explain to parents that it is your duty as a teacher to report cases of suspected abuse. It may be helpful to outline to them the procedures, so professional guidelines are adhered to at all times.
- ❖ Make a written record of the meeting, what was said and who was present (date/time etc.)

Staff Agreed Code of Conduct

Gifts received

In the context of fostering understanding and promoting the relationship between adults and children gifts are deemed acceptable (e.g. Christmas cards etc.). Any concerns/issues as to the appropriateness of receiving/offering a token should be addressed to the Headteacher for guidance.

Arrangements for PE changing – boys/girls

The staff need to be sensitive to the requirements of all the children when changing for PE. In certain cases alternative arrangements should be sought. For example, separate facilities for older children with clear procedures for supervision.

Access to toilet facilities

In the event of an emergency it may be necessary for access to be gained by an adult without prior notice. Routine supervision will involve notifying the occupants of access.

e-Safety

All staff are aware of school guidance for the use of mobile technology and the safeguarding issues associated with their use (*See 'Safer Working Practices' policy*)

Individual teachers / individual pupils in classroom situation

Professional behaviour appropriate to the supervision of individual children is understood by all staff. (See Safer working Practice Policy)

Implicit in this would be the avoidance of placing either the member of staff or the child in a compromising situation. If there are any concerns they will be shared with the Headteacher as soon as practicable.

Physical contact with pupils (*For further guidance please refer to the agreed policy on 'Physical Contact and the use of force'*)

It is acknowledged that physical contact between adults and children is inevitable and provides reassurance. All adults working with children need to be mindful that perfectly innocent actions can at times be misconstrued. If the adult determines that this has been the case then all concerns need to be reported to the Headteacher immediately. A professional code of conduct is required at all times with respect to the adult and the child.

Relationships are valued

We value the relationships between child/adult and the protection and welfare of the child is the paramount consideration in all our actions.

Appropriate personnel to be informed regarding first aid etc.

Our first aid code of practice is included in our Health and Safety Policy of which all supervising and qualified adults have been notified and clearly understand.

Smoking and alcohol on premises

As part of our PHSCE Policy we encourage the children to understand the health risks involved in smoking both directly and passively. We support and enforce the Glos County Council Policy on premises being no smoking zones.

The dangers of excess alcohol consumption also forms part of the policy. The messages we give as adults are important and a professional stance is adopted. Guidance as to the misuse of harmful substances are found in our Drug Awareness policy.

Children's attendance

Procedures for the registration of children should be followed to enable attendance to be monitored by the Headteacher and appropriate external agencies. In order to fulfil the requirements of our Child Protection policy staff are to report any concerns/issues regarding attendance to the Headteacher. Any two week unauthorised absence will be notified to the LA to support the risk management of pupils vulnerable to radicalization.

Supervision of Children off site

Procedures for Child protection are applied in the event of off-site activities. LA guidance regarding pupil/adult ratio is adhered to and where appropriate professional staff may challenge individuals in the interests of child protection without placing themselves at risk.

The Staff Agreed Code of Conduct is discussed with all staff and forms part of the induction training for all new staff and volunteers.

Monitoring and evaluation

Our Child Protection Policy and Procedures will be monitored and evaluated by:

- Governing Body visits to the school.
- Headteacher and DSL discussions with children/staff.
- Pupil surveys/questionnaires and individual conferencing.
- Scrutiny of Attendance data.
- Scrutiny of range of risk assessments.
- Scrutiny of Governing Body minutes of meetings.
- Logs of bullying/racist/behaviour incidents for Headteacher/DSL/Governor Lead to monitor.
- Review of parental concerns and parent questionnaires.

CME (Children missing education)	<p>Anyone concerned that a child is missing education (CME) can make a referral to the Education Entitlement and Inclusion team (EEI) at Gloucestershire County Council. Tel: 01452 426960/427360.</p> <p>Children Missing Education (CME) refers to 'any child of compulsory school age who is not registered at any formally approved education activity e.g. school, alternative provision, elective home education, and has been out of education provision for at least 4 weeks'. CME also includes those children who are missing (family whereabouts unknown), and are usually children who are registered on a school roll / alternative provision. This might be a child who is not at their last known address and either: has not taken up an allocated school place as expected, or has 10 or more days of continuous absence from school without explanation, or left school suddenly and the destination is unknown. It is the responsibility of the Education Entitlement and Inclusion team, on behalf of the Local Authority (LA), to: Collate information on all reported cases of CME of statutory school aged children in Gloucestershire maintained schools, academies, free schools, alternative provision academies and Alternative Provision Schools (APS). The EEI Team will also liaise with partner agencies and other LAs and schools across Britain to track pupils who may be missing education and ensure each child missing education is offered full time education within 2 weeks of the date the LA was informed.</p>
